

# Funnels

## Non – Swirl Galvanized Metal Funnels

Heavy duty galvanized steel funnels with fully wired top for added strength. Funnels come with a 70 mesh brass strainer screen, the strainer is removable on all center spout styles and soldered in place on the side spout funnels. Center spout funnels have fluted bottom to prevent swirling. center spouts are 1" diameter, side spouts are 7/8". All spouts are grooved for air venting.

02353
